

Transfer Cap Set

Reduce the risk of
blood-culture exposure

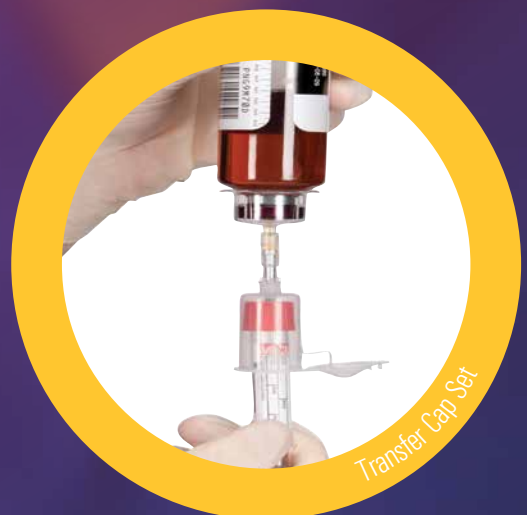

Safe and efficient sample transfer
from culture bottle to vacuum tube

More than 385,000 US healthcare workers¹ sustain
needlestick injuries each year.

For a safe and productive lab, choose the Transfer Cap Set.

- An all-in-one needleless solution, perfect for laboratories with automated streakers
- Fully-contained transfer reduces the risk of exposure to positive blood-culture samples
- Use with a variety of culture bottles and vacuum tubes

The new standard for safety in blood culture sampling

A fully-contained sample transfer process

Transfer Cap Set:

- Integrated safety lid
- Plastic safety tip is easy to insert and remove from culture bottles
- Flexible fit with most blood-culture bottles and vacuum tubes
- Contained sample transfer reduces potential exposure
- Perfect for laboratories with automated streakers

Flexible Fit
